PARENTS RIGHT TO KNOW

At Towns County High School, we are very proud of our teachers and feel they are ready for the coming school year and are prepared to give your child a high-quality education. By law, Local Education Agencies are required to notify parents of their “Right to Know” the professional qualifications of the student’s classroom teachers. These regulations allow you to learn more about your child’s teachers’ training and credentials. We are happy to provide this information to you. At any time, you may ask:

Whether the student’s teacher-

- has met state qualifications and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
- is teaching under emergency or provisional status through which State qualification or licensing criteria have been waived; and
- is teaching in the field of discipline of the certification of the teacher.

You may also ask whether your child receives help from a paraprofessional. If your child receives this assistance, we can provide you with information about the paraprofessional’s qualifications.

Our staff is committed to helping your child develop the academic knowledge and critical thinking he/she needs to succeed in school and beyond. That commitment includes making sure that all of our teachers and paraprofessionals are highly skilled.

If you have any questions about your child’s assignment to a teacher or paraprofessional, please contact Bryan Thomason at Towns County High School at (706) 896-4131 ext. 1015 or by email at bthomason@townscountyschools.org.

NOTICE TO PARENT/GUARDIANS AND ELIGIBLE STUDENTS OF RIGHTS UNDER THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

FERPA affords parents and eligible students (over 18 years of age or attending a postsecondary institution) certain rights with respect to the student’s education records. These rights are:

1. The right to inspect and review the student’s education records within 45 days after the school receives a request for access. Parents or eligible students should submit to the principal a written request that identifies the records they wish to inspect. The principal or designee will arrange for access and notify the parent or eligible student of the time and place where the records can be inspected.
2. The rights to request the amendment of the student’s education records that the parent or eligible student believes is inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. To request amendment of a student record, parents or eligible students should submit to the school principal a written request, specifying the part of the record they want changed and why it is inaccurate, misleading, or otherwise in violation of the student’s privacy rights. If the school decides not to amend the record, it will notify the parents or eligible students of the decision and inform

them of their right to a hearing. Additional information regarding the hearing procedure will be provided with the notification of the right to a hearing.

- The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that disclosure without prior written consent is authorized by FERPA and its implementing regulations at 34 C.F.R § 99.31. One exception that permits disclosure without consent is to school officials with legitimate educational interest. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility. A school official is a person employed by the school district as an administrator, supervisor, instructor, or support staff member (including school nurses and school resource officers); a member of the school board; a person or company with whom the district has contracted to perform a specific task (such as attorney, auditor, medical consultant, volunteer, or other party to whom the school district has out-sourced services, such as electronic data storage; or a parent or student serving on an official committee (such as a disciplinary or grievance committee) or assisting another school official in performing his or her tasks. The district allows school officials to access only student records in which they have a legitimate educational interest. School officials remain under the district's control with regard to the use and maintenance of PII, which may be used only for the purpose for which disclosure was made, and cannot be released to other parties without authorization.

Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.

1. FERPA requires the school district, with certain exceptions to obtain written consent prior to the disclosure of personally identifiable information from the student's education records. However, the district may disclose appropriate designated "directory information" without written consent, unless the parent or eligible student has advised the district to the contrary in accordance with district procedures. The primary purpose of directory information is to allow the school to include this type of information from the student's education records in certain school publications, such as the annual yearbook, graduation or sports activity programs, honor roll or other recognition lists, or on websites or social media sites affiliated with the school or school district.
2. **Towns County Schools has designated the following information as directory information:**
 - a. Student's name, address and telephone number;
 - b. Student's date and place of birth;
 - c. Student's participation in official school clubs and sports;
 - d. Weight and height of student if he/she is a member of an athletic team;
 - e. Dates of attendance at schools within the school district;
 - f. Honors and awards received during the time enrolled in the district's schools
 - g. Photograph
 - h. Grade level

Unless you, as a parent/guardian or eligible student, request otherwise, this information may be disclosed to the public upon request. In addition, two federal laws require school districts receiving federal financial assistance to provide military recruiters, upon request, with students' names, addresses, and telephone numbers unless parents have advised the school district that they do not want their student's information disclosed without their prior written consent. You have the right to refuse to allow all or any part of the above information to be designated as directory information and to refuse to allow it to be disclosed to the public upon request without your prior written consent. If you wish to exercise this right, you must notify the principal of the school at which the student is enrolled in writing within 10 days after officially enrolling in school or within 10 days of the date of the release of this notice.

3. You are also notified that from time to time students may be photographed, videoed, or interviewed by the news media at school or at some school activity or event. The principal will take reasonable steps to control access to students by the media or other individuals not affiliated with the school district. However, your submission of a written objection does not constitute a guarantee that your student will not be photographed, videoed, or interviewed, or that such information will not be posted on websites or social media sites not affiliated with the school or district, or in circumstances which are not within the knowledge or control of the principal.
4. You have the right to file with the U.S. Department of Education a complaint concerning alleged failures by the school district to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202

5. The Georgia Student Data Privacy, Accessibility, and Transparency Act affords parents and eligible students the right to file a complaint with the school district regarding a possible violation of rights under O.C.G.A. § 20-2-667 or under other federal or state student data privacy and security laws.

Such complaints may be filed with:

Trena Stroud, Technology Director

TITLE I SCHOOL DESIGNATION

The Elementary and Secondary Education Act (ESEA) of 1965 requires that parents or guardians who have children attending a Title I school be notified of how well their school is preparing its students for college and/or a career, as well as the school's designation status under Georgia's ESEA Flexibility Waiver. Under Georgia's ESEA Flexibility Waiver, certain Title I schools are designated as Reward, Priority, Focus, or Alert schools.

Towns County High School has not been given a school designation this year, which means we are continuing to provide a quality education to all of our students.

SECTION 504 PARENTAL RIGHTS

Any student, parent or guardian ("grievant") may request an impartial hearing relating to the school system's actions or inactions regarding their child's identification, evaluation, or educational placement under Section 504. Requests for an impartial hearing must be in writing to the school system's Section 504 Coordinator, Erica Chastain. An oral request does not alleviate the school system's obligation to provide an impartial hearing. The school system's Section 504 Coordinator shall assist the grievant in completing the written Request for Hearing if needed or requested. The Section 504 Coordinator, Erica Chastain, may be contacted by phone at (706) 896-4131 ext. 1525 or by e-mail at echastain@townscountyschools.org. Copies of the 504 Procedural Safeguards and Notice of Rights of Students and Parents under Section 504 may be found at the system website or may be picked up at the central office or at any of the school offices.

TOBACCO FREE SCHOOL

In an effort to promote a healthy lifestyle for our young people, Towns County School System has banned the use of tobacco on campus. Towns County Schools is a 100% Tobacco Free School System. This includes the use of tobacco products during all school functions by students and adults. We appreciate everyone's help in setting a positive example for the students of Towns County. Therefore, a complaint should not be filed with the Georgia Department of Education until every effort has been made to resolve through local written complaint procedures. If the complainant has tried to file a complaint with Towns County Schools to no avail, the complainant must provide the Georgia Department of Education written proof of their attempt to resolve the issue with Towns County Schools.

2. How the complainant may provide additional information;
3. A statement of the ways in which Towns County Schools may investigate or address the complaint; and any other pertinent information.

If additional information or an investigation is necessary, the school system will have sixty (60) days from receipt of the information or completion of the investigation to issue a Letter of Findings. If the Letter of Findings indicates that a violation has been found, corrective action will be required and timelines for completion will be included. The 60-day timelines may be extended, if exceptional circumstances exist. The Letter of Findings will be sent directly to the complainant.

Right of Appeal:

If the complaint cannot be resolved at the local level, the complainant has the right to request review of the decision by the Georgia Department of Education. For complaints filed pursuant to Section 9503 (20 U.S.C. 7883, complaint process for participation of private school children), a complainant may appeal to the Georgia Department of Education no later than thirty (30) days from the date on which the complainant receives the Letter of Findings. TOWNS COUNTY HIGH SCHOOL ATTENDANCE POLICY

The Towns County School System encourages students to participate in their educational experience by attending school regularly and participating in class activities on a daily basis. Regular and punctual attendance is a desirable work habit in school and in all career choices; therefore, we expect students to be at school and on time for all classes unless circumstances arise which make it unsafe or unwise to do so. School attendance is very important; therefore, the faculty encourages students to be in school every day. Students shall not have more than 5 unexcused absences during the school year. At the 6th unexcused absence, students may receive no credit for work missed during the unexcused absence. Parent notes are acceptable to excuse up to 5 absences. After 5 absences a doctor's note will be required to excuse future absences.

CRIMINAL PROSECUTION FOR VIOLATION OF SCHOOL ATTENDANCE LAW

O.C.G.A. 20-2-690.1 requires any person in this State who has control or charge of a child between the ages of six (6) or sixteen (16) to enroll and send that child to school, including public, private and home schooling.

A child is responsible to attend school and is subject to adjudication in Towns County Juvenile Court as an unruly child for violation of the statute. If a parent, guardian or other person who has control or charge of the child causes the child's absence, then that person, and not the child, is in violation of this statute. Such a violation is a misdemeanor and carries a penalty of up to \$100 fine and 30 days in jail for each violation. The law specifies that each day's absence constitutes a separate offense.

DRIVER'S LICENSE

Georgia's Teenagers are required to obtain a Certificate of School Enrollment from our school registrar to meet their requirements in obtaining a Learner's Permit or Driver's License.

EXCUSED ABSENCES

It is the policy of the Towns County Board of Education that students must attend each school day, in its entirety, each day school is in session, unless the student is absent due to one or more of the reasons as follows:

In order for a student to have an excused absence, a written excuse from the parent or **original** doctor's excuse must be presented to the attendance clerk in the main office within **five days**

after the absence. These excuses will be maintained in the student's folder for the remainder of the school year.

Excused absences include:

1. Personal illnesses or attendance in school endangering a student's health or the health of others. The principal may require a doctor's excuse after 5 excused absences.
 2. A serious illness, death or emergency in a student's immediate family necessitating absence from school.
 3. A court order or an order by a governmental agency, including pre-induction physical examinations for service in the armed forces, mandating absence from school.
 4. Celebrating religious holidays, necessitating absence from school.
 5. Conditions rendering attendance impossible or hazardous to student health or safety.
 6. A period not to exceed one day is allowed for registering to vote or voting in a public election.
 7. Excused status can be obtained for special circumstances at the discretion of the principal. Such approval should be obtained prior to the date of absence.
- One college visit during the school year will be excused for seniors. The senior must submit the College Visit Permission Form (see the HS Counselor for this form) to an administrator at least one week prior to the scheduled absence for this visit to be excused. The form must also be signed by a college official and returned with a pamphlet/brochure from the college, upon returning to school.
 - Students shall be counted present when they are serving as pages of the Georgia General Assembly and/or while representing the school in an activity approved by the school and/or the Towns County Board of Education.
 - The student must submit to the attendance clerk documentation of the reason for each absence in the form required by the principal **within 5 days after returning to school**. All such documentation will be evaluated to determine if the absence is excused or unexcused. If the required documentation is not furnished or the reason for the absence is other than stated above, the absence shall be considered as unexcused. **A student has at least five days from the day he/she returns to school to make up work missed as a result of an excused absence.** The teacher or an administrator may give a student more than 5 days to make up missing work, as special circumstances arise.

GRADES AND ABSENCES

Final course grades of students shall not be penalized because of excused absences if all schoolwork or assignments during each excused absence, including tests, are made up within the time prescribed by the student's teacher or principal. If the student fails to make up work within the prescribed time, the student will be denied credit for all work not completed.

UNEXCUSED ABSENCES

A student is absent any time he or she is missing from school or from any assigned class or school activity for reasons other than those stated above.

The principal shall use the following guidelines in determining whether to allow a student with excessive absences to receive credit for coursework in which passing grades are earned:

If a student has no more than 5 unexcused absences in a class during a semester, the student shall not be denied credit for the semester for that class based on excessive absences.

If more than 5 absences are unexcused for a class during a semester, the principal shall determine whether there exists an unusual condition or extenuating circumstances relating to the student's personal life or family situation which would require that the provisions of the attendance policy be waived. If so, the student shall be allowed to make up missed work and seat time and shall not be denied credit for the semester based on excessive absences. Students with excessive absences will be asked to make up work and seat time in Lunch Detention and will be granted Attendance Recovery.

If the student or student's parent/guardian desires to appeal the decision of the principal, the principal shall hear the appeal and determine if there are unusual conditions or extenuating circumstances as specified above which would justify allowing the student to make up missed work and seat time and to receive credit for coursework in which passing grades were earned.

If the decision of the principal is not satisfactory to the student, the student may appeal to the Superintendent. The appeal must be made within two weeks after the student has been furnished a decision by the principal, either in mail or in person. The decision of the Superintendent shall be final.

POLICIES AND PROCEDURES TO REDUCE UNEXCUSED ABSENCES

The school system requires its schools to provide to the parent, guardian, or other person having control or charge of each student enrolled in school a written summary of possible consequences and penalties for failing to comply with compulsory attendance. By September 1, of each school year or within 30 school days of a student's enrollment in the school system, the parent, guardian, or other person having control or charge of such student will be asked to sign a statement indicating receipt of such written statement of possible consequences and penalties. In addition, students age 10 or older by September 1, must sign a statement indicating receipt of written statement of possible consequences for non-compliance to the local Board policy; and

At three (3) unexcused absences, the principal or his/her designee will contact the parent either by phone (automated system) or in writing. This serves to notify the parent(s) of attendance to date.

At four (4) absences, the principal or his/her designee will contact the parent/student concerning required "seat time" make up in Lunch Detention.

At five (5) unexcused absences, the principal or his/her designee will send a letter to the parent(s) along with a copy of the attendance law mandated by the state. This letter will request the parent to contact the principal or his designee to arrange an Attendance Support Team (AST) meeting and will require a signature of receipt.

At seven (7) unexcused absences and/or ten (10) total absences, the principal or his/her designee will call the parent(s) to investigate and request an AST meeting to review the case and consider making a referral.

At ten (10) unexcused absences, the principal or his/her designee will make a referral if one has

not been made previously.

HOSPITAL/HOMEBOUND INSTRUCTION

Hospital/Homebound Instruction is provided for students whose absences qualify students for such services in accordance with State Board Policy IDDC.

The principal has the authority to enact and carry out rules and/or procedures consistent with this policy and to administer discretion as necessary.

The Superintendent of Schools shall promulgate administrative regulations and procedures to implement the provisions of this policy.

Hospital/homebound instruction is a teaching service provided to students having a medically diagnosed physical condition that prevents school attendance for a period of ten (10) days or more. Students eligible must be absent for a minimum of ten (10) consecutive days unless a physician certifies that the student has a chronic health condition causing the student to be absent for intermittent periods during the school year. Hospital/homebound services are not available for students with communicable diseases, pregnant students except when a physician certifies that complications exist, or in cases of expulsion or out of school suspension.

UNIFORM WITHDRAWAL CRITERIA

For the purpose of accurately measuring the academic performance of students continuously enrolled in public schools, the Board adopts the following uniform criteria for withdrawing students.

Appropriate school personnel are authorized to withdraw a student who:

- a. Has missed more than ten (10) consecutive days of unexcused absences;
- b. Is not subject to compulsory school attendance; and
- c. Is not receiving instructional services through homebound instruction or instructional services required by the federal Individual with Disabilities Education Act (IDEA).
- d. The Superintendent or the Superintendent's designee shall use his or her best efforts to notify the parent, guardian, or other person who has charge of a student if the school system plans to withdraw such student who is younger than 18 years of age and is not subject to compulsory school attendance.

Appropriate school personnel are authorized to withdraw a student subject to compulsory attendance if the Superintendent or the Superintendent's designee has determined the student is no longer a resident of the local school system or is enrolled in a private school or home study program. Appropriate school personnel shall withdraw students retroactive to the first day of the consecutive absences.

TARDINESS

Upon late arrival to school, **after 8 AM**, students must sign-in at the front office with Mrs. Sherri Livingston, or any other front office personnel, receive an admittance slip to class, and report directly to class. A student is tardy when he or she arrives unexcused at an assigned place after the designated time. Repeated or habitual tardiness is disruptive to the orderly instructional process. Teachers or Principals will have the discretion to take corrective action such as loss of

privilege, ISS, etc. In an effort to address the concerns of industry and employers, the Towns County School System is trying to teach students the importance of being punctual. Students are required to be at school and in class each day **at 8 AM**. Towns County High School realizes students may occasionally have unforeseen circumstances that make them late to school. For this reason, each semester the student will have 3 tardy passes that may be used to enter first period without penalty. No excuses will be required and each of these tardies will be classified as excused.

All tardies after the first three covered by the passes will result in a corrective action such as loss of privilege, Lunch Detention, etc.

1. At (1 - 3) tardies, the student will be warned.
2. At (4*) tardies, the student will be assigned lunch detention and will receive a warning that his/her parking privileges may be revoked.
3. At (6*) tardies, the student will be assigned 2 days lunch detention and his/her parking privileges will be revoked for two weeks.
4. At (10*) tardies, the student will be assigned 3 days lunch detention or 1 day of ISS and his/her parking privileges will be revoked for the remainder of the semester.
5. At (14*) tardies, the student will be assigned 4 days lunch detention or 2 days of ISS and his/her parking privileges will be revoked for the remainder of the year.

*This is each semester; the policy will start over at beginning of each semester.

Students who are late for 1st Block and wait until the beginning of 2nd Block to “Sign-In” will be considered absent from 1st Block. Students must check in! Habitual check-in’s after 1st block will be treated as tardies and follow the above responses.

Students tardy for other classes during the day will be marked in IC by the teacher. Students with three or more tardies in any combination of classes or arrival to school will receive lunch detention. Students must be in class for at-least half of the class to be counted present. Students should carefully consider the effects of arriving to class late more than three times.

SIGN OUT

Parents who want to sign a student out early must do so through the front office – parents/guardians should never check a student out by going to their classroom. In order for a student to check out without a parent being present, the student **must bring a parent note by 8:30am to Ms. Sherri Livingston (front office)** that gives permission for their child to check out early. Please include a number where the parent can be reached during the day on notes authorizing students to leave the campus. **Students may sign back in only if the reason for leaving was an excused absence.**

EXTRACURRICULAR ACTIVITIES

A student must attend school for at least one-half of the school day on the day he/she participates in an extracurricular activity. The principal or his designee may make an exception to this policy in emergency situations. Students under suspension (in school or out) are ineligible to participate in any extracurricular activities.

LUNCH PERIOD

Students are required to stay in the lunchroom during their lunch period. They are not allowed to leave the cafeteria without permission from an administrator.

AUTOMOBILE USE

Cooperation from all students who drive is required in order to maintain a safe parking area. Students who register to park on campus during the school year do so with the understanding and willingness to follow the rules listed below:

Acceptance of a parking permit is under the condition and consent by the student/parents that his/her vehicle may be searched.

Students must not remain in the vehicle upon arrival in the morning, or go to the vehicle during the day without administrative approval.

Once a student arrives by automobile on campus he/she or any riders may not leave without following the proper checkout procedures. **Doing so may result in the loss of parking privileges.**

Students are reminded to drive carefully in and out of the parking area.

The parking lot area is considered school property. Therefore, the use and possession of tobacco, alcohol, drugs, and/or related paraphernalia is prohibited and may result in suspension/expulsion from school.

In case of an accident on campus, all students involved are not to move their vehicles and are to notify an administrator or campus police, immediately. Parents will be notified and the Sheriff's department will be called to the scene to investigate.

A student's vehicle can be towed and the student may be fined \$150.00 for parking illegally in a handicapped space.

Students must have a drug screening form signed by both student and parent before a parking permit will be issued.

A student's vehicle can be towed and the student may be fined \$25.00 for parking on campus without a permit.

Parking permits may be obtained in SRO's office for a fee of \$20 per year. Students will be assigned a parking permit tag that coordinates numerically with a parking spot. Students must visibly display this parking permit from the inside mirror of the vehicle and park in the correct parking spot. Students who do not follow these rules are at risk for serving in ISS and/or losing their driving privileges. Permits must be purchased within the first 2 weeks of school or within 2 weeks of student receiving their drivers permit.

NOTE: The Towns County School System is not responsible for the damage or loss of property of any vehicle parked on school grounds.

DRUG FREE SCHOOL ZONE ACT

It is illegal to engage in drug activity in, on, or within 1000 feet of any school property. An individual convicted will be guilty of a felony and imprisoned for up to 20 years and/or fined up to \$20,000 for a first offense.

DRUG SCREENING POLICY

The Towns County Board of Education firmly believes that the use and abuse of drugs that are not prescribed or used as prescribed are detrimental to the physical, emotional and mental well being of its students. The Board further believes that this abuse seriously interferes with the academic and athletic performance of students and creates an unhealthy learning environment. These concerns have prompted the Board to authorize the Superintendent and his staff to develop and implement drug-screening procedures for all students who wish to participate in any interscholastic athletic activity or any interscholastic extra-curricular activity, or any student who applies for a parking permit and intends to park a vehicle on school grounds at Towns County High School.

DRUG SCREENING PROCEDURES

Definitions:

Alcohol shall mean any beverage, mixture, or preparation, including any medication or other products, containing alcohol or ethanol.

Chain of Custody refers to the procedures for maintaining control and accountability from initial collection to final disposition for all such materials or substances and providing for accountability at each stage in handling, testing, and storing specimens and reporting test results.

Drugs shall mean any substance screened for under the policy and shall include, without limitation, alcohol, amphetamines, anabolic steroids, barbiturates, benzodiazepines, cocaine, marijuana, methadone, methaqualone, opiates, phencyclidine, and propoxyphene.

Specimen means urine, tissue, hair, or a product of the human body capable of revealing the presence of drugs or their metabolites, as approved by the United States Food and Drug Administration or the Agency for Health Care Association.

A Participating Student is any student enrolled in Towns County High School or Towns County Middle School who participates in or applies for participation in any interscholastic athletic program or extracurricular activity, or who parks a vehicle on school property.

Privileged Activity encompasses all high school and middle school interscholastic sports, extracurricular activities, and parking a vehicle on school property.

Drug Screening Procedures:

Consent: Each participating student and his or her parents are required to sign a written consent for drug testing form prior to being allowed to participate in any privileged activity. Any random drug testing done throughout the course of the school year will be paid for by the school. Any refusal by a participating student to be tested shall constitute a violation of this policy.

Medication: Participating students who have been selected for drug testing and who are or have been taking prescription or non-prescription medication should disclose that fact at the time of drug testing and, upon request, provide verification. This verification may be done by either

submitting a copy of the prescription or by the physician's written authorization.

Selection Process: Drug testing of participating students shall occur at various times throughout the school year. Individuals will be selected at random using a numerical selection process where each participating student's name and identity remain unknown until the random selections are completed. The random selection will occur monthly throughout the school year. The random drawing of participating students will be performed by the contracting body and provided to the Towns County High School or Towns County Middle School administration. This method is to ensure fairness and confidentiality for students. Retesting of participating students following a first offense or first positive drug test will occur at times not previously disclosed to the participating student to deter the participating student from committing a subsequent violation.

Specimen Collection Procedures: Procedures for the collections, testing and result verification of specimens will be set forth by the testing facility contracted with to perform such services and will be distributed to all the students. The testing for our students will be conducted in private under the supervision of the school nurse. The method of testing for our students will utilize an oral fluid test, which involves the student's collection of saliva on a collection pad (swab). The collection pad (swab) will be placed into a sealed vial by the student and sent by the nurse to the testing company laboratory for analysis.

Guidance Counselor: The designated counselor will receive all reports of positive drug test results and will be supplied with information to determine the correct name of each participating student whose identifying number appears on a positive test result report.

Appeal: A participating student who has tested positive and whose test results the Guidance Counselor has forwarded to the school principal or his or her designee for the imposition of action provided under policy IDF shall be entitled to appeal such a decision to the school principal. The principal's decision can be appealed only to the Towns County Board of Education.

General Provisions and Penalties:

Standard of Conduct for Participating Students: The use or possession of a drug, as defined herein, by a participating student is both dangerous and detrimental to a student's ability to drive and participate in athletics or extracurricular activities and is hereby prohibited.

Penalties: Any participating student whose drug test administered according to this policy renders a positive test result as indicated by the test or any participating student who otherwise violates this policy shall be subject to the following consequences.

First Offense or First Positive Drug Test Result: The participating student and his or her parents will be required to attend a conference held with one or more of the following staff members as determined by the Principal, Counselor, Athletic Director, or Principal's designee. If the student participates in extra-curricular activities including athletics, the student will be banned from 10% of the teams or groups games and activities beginning with the next scheduled contest. Student athletes may remain part of the team and will be expected to participate in the team practices and conditioning sessions. The student may not attend any overnight trips with the team or group

during the suspension. If a student driver, the student will lose driving privileges for 15 school days. The participating student will be required to offer evidence of participation in a drug assessment/counseling program within 30 days of a positive test result. The participating student will be subject to recurring drug tests at times not be previously disclosed to the participating student to deter the participating student from committing a subsequent violation of this policy.

Second Offense or Second Positive Test Result: The participating student will be suspended from participating in privileged activities for 45 days. The participating student may reapply to the athletic director or principal for reinstatement of his/her eligibility to participate in privileged activities only after a negative test result is obtained and successful completion of an appropriate drug assessment/counseling program.

Subsequent Offense or Subsequent Positive Drug Test Results:

Upon determination of a third or subsequent positive drug test result, the participating student shall be prohibited from participation in all privileged activities for one full calendar year. At the end of the year in order for a student to be allowed to resume participation in privileged activities, the student must provide evidence of the successful completion of an appropriate drug assessment/counseling program and a negative test result from the school's testing program that was obtained after the year's prohibition.

Violations of the drug testing policy are accumulative during a student's entire career at Towns County Middle School or Towns County High School; therefore, penalties will increase in severity for each violation that occurs while a student is enrolled at either of the schools.

Note: Violations are not carried over from the Middle School to the High School.

STUDENT DRESS CODE

Appropriate dress is essential to success in school and in the work-place; however, students are allowed a measure of freedom in choosing appropriate clothing to wear in school. CONSEQUENCES FOR VIOLATION OF DRESS CODE

The student will be asked to modify their attire without leaving campus or will be offered something furnished by the principal to wear to class. If the attire cannot be modified to comply, parents will be notified and asked to bring acceptable clothing to school. The student will wait in the ISS room and complete schoolwork while awaiting the clothing. For repeated offenses, Loss of privileges, ISS, and /or OSS may be necessary.

CELL PHONE and SMART DEVICE USE

Upon entering every classroom, **students are required to place their phone in the cell phone caddy.** Phones must stay in the caddy at all times, unless the teacher is using Bring Your Own Technology at that particular time. It is not the teacher or school's responsibility to provide an opportunity for the student to charge his/her phone. Students who keep their phone in class will be given a warning by the teacher. After being warned, students' phones will be taken up to the front office. **Students caught attempting to use a "burner" phone will automatically receive ISS.** Smart devices (watches) are not to be used in the classroom. Students may continue to wear them, but the use of such devices will be treated like unauthorized phone use.

(a) Any student (*or parent or friend of a student*) who has been the victim of an act of sexual abuse or sexual misconduct by a teacher, administrator or other school system employee is urged to make an oral report of the act to any teacher, counselor or administrator at his/her school.

(c) Any school principal or principal's designee receiving a report of sexual abuse as defined in O.C.G.A. 19-7-5 shall make an oral report immediately, but in no case later than 24 hours from the time there is reasonable cause to believe a child has been abused. The report should be made by telephone and followed by a written report in writing, if requested, to a child welfare agency providing protective services, as designated by the Department of Human Resources, or, in the

absence of such agency, to an appropriate police authority or district attorney.

Reports of acts of sexual misconduct against a student by a teacher, administrator or other employee not covered by O.C.G.A. 19-7-5 or 20-2-1184 shall be investigated immediately by school or system personnel. If the investigation of the allegation of sexual misconduct indicates a reasonable cause to believe that the report of sexual misconduct is valid, the school principal or principal's designee shall make an immediate written report to the superintendent and the Professional Standards Commission Ethics Division.

STUDENT CODE OF CONDUCT

It is the purpose of the Board of Education to operate each school in a manner that will provide an orderly process of education and that will provide for the welfare and safety of all students who attend the schools within the district. In accordance with that purpose, the Board of Education has adopted a policy which requires all schools to adopt codes of conduct which require students to conduct themselves at all times in order to facilitate a learning environment for themselves and other students. These standards for behavior require students to respect each other and school district employees, to obey student behavior policies adopted by the Board and to obey student behavior rules established at each school within the district.

The school's primary goal is to educate, not to punish; however, when the behavior of an individual student comes in conflict with the rights of others, corrective actions may be necessary for the benefit of that individual and the school as a whole. Accordingly, students shall be governed by policies, regulations and rules set forth in the Code of Conduct.

The Code of Conduct is effective during the following times and in the following places:

- At school or on school property at any time;
- Off school grounds at any school-related activity, function or event and while traveling to and from such events;
- On school buses and at school bus stops.

In addition, students may be disciplined for conduct off campus which could result in the student being criminally charged with a felony and which makes the student's continued presence at school a potential danger to persons or property at the school or which disrupts the educational process.

Major offenses including, but not limited to, drug and weapon offenses can lead to schools being named as an Unsafe School according to the provisions of State Board Rule 160-4-8-.16, Unsafe School Choice Option.

The General Assembly of Georgia requires that this code of conduct include language encouraging parents and guardians to inform their children on the consequences, including potential criminal penalties, of underage sexual conduct and crimes for which a minor can be tried as an adult.

Parents are encouraged to become familiar with the Code of Conduct and to be supportive of it in their daily communication with their children and others in the community. Parents and students are required to acknowledge receipt of the code of conduct.

AUTHORITY OF THE PRINCIPAL

The principal is the designated leader of the school and, in concert with the staff, is responsible for the orderly operation of the school. In cases of disruptive, disorderly or dangerous conduct not covered in this Code, the principal may undertake corrective measures which he or she believes to be in the best interest of the student and the school provided any such action does not violate school board policy or procedures.

TEACHER AUTHORITY

The Superintendent fully supports the authority of principals and teachers in the school system to remove a student from the classroom pursuant to provisions of state law.

Each teacher shall comply with the provisions of O.C.G.A. § 20-2-737, which requires the filing of a report by a teacher who has knowledge that a student has exhibited behavior that repeatedly or substantially interferes with the teacher's ability to communicate effectively with the students in his or her class or with the ability of such student's classmates to learn, where such behavior is in violation of the student code of conduct. Such report shall be filed with the principal or designee on the school day of the most recent occurrence of such behavior, shall not exceed one page, and shall describe the behavior. The principal or designee shall, within one school day after receiving such a report from a teacher, send to the student's parents or guardian a copy of the report and information regarding how the student's parents or guardians may contact the principal or designee.

The principal or designee shall notify in writing the teacher and the student's parents or guardian of the discipline or student support services, which has occurred as a result of the teacher's report within one school day from the imposition of discipline or the utilization of the support services. The principal or designee shall make a reasonable attempt to confirm that the student's parents or guardian has received the written notification, including information as to how the parents or guardian may contact the principal or designee.

PROGRESSIVE DISCIPLINE PROCEDURES

When it is necessary to impose discipline, school administrators and teachers will follow a progressive discipline process. The degree of discipline to be imposed by each school official will be in proportion to the severity of the behavior of a particular student and will consider the student's discipline history, the age of the student, and other relevant factors.

The Code of Conduct provides a systematic process of behavioral correction in which inappropriate behaviors are followed by consequences. Disciplinary actions are designed to teach students self-discipline and to help them substitute inappropriate behaviors with those that are consistent with the character traits from Georgia's Character Education Program.

The following actions may be imposed for any violation of this Code of Conduct:

- Warning and/or conference with a school administrator, counselor, or social worker
- Loss of privileges
- Time out
- Removal from class or activity
- Notification of parents
- Parent conference
- Corporal punishment
- Detention
- In-school suspension
- Short-term suspension
- Placement in an alternative education program
- Referral to a disciplinary tribunal for long-term suspension or expulsion
- Suspension or expulsion from the school bus

Referral to law enforcement or juvenile court officials: Georgia law requires that certain acts of misconduct be referred to the appropriate law enforcement officials. The school will refer any act of misconduct to law enforcement officials when school officials determine such referral to be necessary or appropriate.

The maximum punishments for an offense include long-term suspension or expulsion, including permanent expulsion, but those punishments will be determined only by a disciplinary tribunal or hearing officer as outlined in Code Section 20-2-754.

Parents or students may elect not to contest whether a student has violated the Code of Conduct or the appropriate discipline, and in such cases, an agreement may be negotiated which would include the parents or students waiving a right to a hearing before a disciplinary tribunal or hearing officer. Such an agreement and waiver must be approved also by the disciplinary tribunal or hearing officer.

Before a student is suspended for ten days or less, the principal or designee will inform the student of the offense for which the student is charged and allow the student to explain his or her behavior. If the student is suspended, the student's parents will be notified if possible. School officials may involve law enforcement officials when evidence surrounding a situation necessitates their involvement or when there is a legal requirement that an incident be reported.

School officials may search a student if there is reasonable suspicion the student is in possession of an item that is illegal or against school rules. Students' vehicles brought on campus; student book bags, school lockers, desks and other school property are subject to inspection and search by school authorities at any time without further notice to students or parents. Cell phones/multi-media/electronic devices taken from students due to possession and/or use in violation of school rules are subject to having their contents searched. Students are required to cooperate if asked to open book bags, lockers or any vehicle brought on campus. Metal detectors and drug or weapon sniffing dogs may be utilized at school or at any school function, including activities that occur outside normal school hours or off the school campus at the discretion of administrators.

BEHAVIOR THAT WILL RESULT IN DISCIPLINARY PROCEDURES

The degree of discipline imposed will be in accordance with the progressive discipline process unless otherwise stated.

The tribunal shall also have the authority to modify such expulsion requirement on a case-by-case basis in determining the appropriate punishment.

STUDENT SUPPORT PROCESSES

The Board of Education provides a variety of resources that are available at every school within the district to help address student behavioral problems. The school discipline process will include appropriate consideration of support processes to help students resolve such problems. These resources include Student Support Teams, attendance support teams, school counselors, peer mentoring, and chronic disciplinary problem student plans.

PARENTAL INVOLVEMENT

This Code of Conduct is based on the expectation that parents, guardians, teachers and school administrators will work together to improve and enhance student behavior and academic performance and will communicate freely their concerns about, and actions in response to, student behavior that detracts from the learning environment. School administrators recognize that two-way communication through personal contacts is extremely valuable; therefore, they provide information to parents as well as on-going opportunities for school personnel to hear parents' concerns and comments.

Parents and students should contact the principal of the school if specific questions arise related to the Code of Conduct.

The Code of Conduct specifies within its standards of behavior various violations of the Code which may result in a school staff member's request that a parent or guardian come to the school for a conference. Parents are encouraged to visit the schools regularly and are expected to be actively involved in the behavior support processes designed to promote positive choices and behavior.

Georgia law mandates that any time a teacher or principal identifies a student as a chronic disciplinary problem student, the principal shall notify by telephone call and by mail the student's parent or guardian of the disciplinary problem, invite the parent or guardian to observe the student in a classroom situation, and request at least one parent or guardian to attend a conference to devise a disciplinary and behavioral correction plan.

Georgia law also states that before any chronic disciplinary problem student is permitted to return to school from a suspension or expulsion, the school shall request by telephone call and by mail at least one parent or guardian to schedule and attend a conference to devise a disciplinary and behavioral correction plan.

The law allows a local board of education to petition the juvenile court to require a parent to attend a school conference. If the court finds that the parent or guardian has willfully and unreasonably failed to attend the conference requested by the principal pursuant to the laws cited above, the court may order the parent or guardian to attend such a conference, order the parent or guardian to participate in such programs or such treatment as the court deems appropriate to improve the student's behavior, or both. After notice and opportunity for hearing, the court may impose a fine, not to exceed \$500.00, on a parent or guardian who willfully disobeys an order of the court under this law.

In the event there is a tie between two or more students weighted GPAs, the student with the highest number of honors or advanced level courses will be named Valedictorian. If there is still a tie, the student with the highest SAT scores will be the determining factor. If two students achieve the same weighted GPA, number of honors or advanced classes, and SAT score they will be named co-Valedictorians and no Salutarian will be selected. If two students achieve the same second highest senior rank, they will be named co-Salutarians and no Historian will be selected.

GRADUATION CEREMONY

Unlike a student's right to a diploma upon completion of graduation requirements, participating in the graduation ceremony is a privilege. In order to participate in the graduation ceremony, students must wear the traditional cap and gown ordered through the official vendor for the graduation ceremony. The official vendor for the graduation cap and gown for the Class of 2025 is 3rd Ascent. Students must wear appropriate graduation attire in an appropriate manner in order

to participate in the graduation ceremony. Students serving In-School Suspension or Out-of-School Suspension may not participate in the graduation ceremony or other school sponsored senior events. In order for any student to walk in the Towns County High School graduation ceremony, they must be enrolled in Towns County High School and meet all of the Towns County High School graduation requirements.

HOPE SCHOLARSHIPS

The HOPE scholarship program will pay tuition for eligible Georgia College students at a rate set by the Georgia Student Finance Commission.

HOPE GRANTS

Hope grants are available to students attending technical colleges.

TESTING OUT

Students may earn course credit by achieving a pre-defined performance level on the State designated EOC as described below:

1. A student may test out of any course that has an associated EOC.
2. A student may only earn up to three credits by testing-out.
3. A student may not be currently or previously enrolled in the course in which they are seeking to “test-out”.
4. The student must have earned a grade of B or better in a content area course that is the same content area of the course for which the student is attempting the EOC.
5. The student must receive teacher recommendation from a teacher in the same content area of the course for which the student is attempting the EOC.
6. The student must receive parent/guardian permission if the student is less than 18 years of age.
7. The student is allowed only one opportunity per course to demonstrate subject area competency.
8. The EOC can only be given during the appropriate state-approved testing window for administration of the EOC.
9. The student must score in the Distinguished level on the EOC to receive credit for the course.
10. If the student does not score in the Distinguished level when attempting to test-out, the student must enroll in and complete the associated course and retake the EOC even if the student made a passing grade on the EOC during the testing-out attempt, if the course is required for graduation.
11. Units earned through “testing-out” will count toward fulfillment of students’ requirements for subject area courses, and towards meeting graduation requirements.

12. Students who are presently enrolled, or who have previously been enrolled, in a higher-level course may not attempt to earn credit by testing-out. For example, a student taking AP Physics may not earn credit for Physical Science by “testing-out”.
13. If the “testing-out” course is one that would normally be included in a student’s GPA, the student’s grade equivalent score on the EOC will be used in the student’s GPA.
14. The Georgia Department of Education will be responsible for the costs of administering the EOC for the purpose of “testing-out” only for those students who reach the performance level of Distinguished. The student and/or parent will be responsible for the costs associated with administering the EOC for “testing-out” purposes if the distinguished performance level is not achieved.

DUAL ENROLLMENT

Dual Enrollment provides opportunities for high school students to enroll in postsecondary institutions to earn both high school and college credits simultaneously. These students must meet all state assessment requirements for those classes that require an EOC. They are eligible to participate in competitive and other extracurricular activities, as long as their schedule can accommodate practices, games, etc. without interfering with their course requirements. Students must complete a Student Participation Agreement form each semester they plan to participate in Dual Enrollment. Communication with the high school counselor is very important for successful implementation of the Dual Enrollment program.

PROMOTION REQUIREMENTS-GRADES 9-12

TRANSFER CREDIT

Towns County High School will accept student course credit earned in a school or home study program accredited by Cognia or by one or more of the following regional accreditation agencies: Georgia Accrediting Commission, the Georgia Association of Christian Schools, the Association of Christian Schools International, the Accrediting Commission for Independent Study, the Southern Association of Independent Schools and/or one of the accrediting agencies that is a member of the Georgia Private School Accreditation Council , and/or one of the following regional accrediting agencies.

1. New England Association of Schools and Colleges (NEASC)

2. Higher Learning Commission
3. Northwest Accreditation Commission
4. Southern Association of Colleges and Schools (SACS)
5. Council of Regional Accrediting Commissions

Any student requesting admission into Towns County High School from a home study program must have his/her parent or guardian provide documentation to the principal that all requirements for operating a home school as specified in Georgia Code 20-2-690 have been met. Subject and grade transfer must meet the district's requirement for instructional contact hours for the regular academic year. After instructional hours are verified by the principal's designee, Towns County High School personnel will test to determine grades and credit transferred from the student's home school or non-accredited situation. The student will be tentatively scheduled in classes, pending verification, as indicated by record furnished to the school by the parent or guardian.

The maximum number of units accepted from non-accredited institutions and home schools is ten (10), two (2) per area tested. No more than six (6) units can be applied for or awarded from any non-accredited situation in any single academic year. Home study credit may not be applied for or awarded for summer school work. School district personnel will administer standardized and/or instructional placement tests in the areas of language arts, science, social studies, and mathematics.

Non-academic course credit may be accepted from a non-accredited institution or home school, provided the student passes a performance test, portfolio review, and/or interview by school district personnel. Elective courses which rely heavily on group participation, public performances, and social interaction are not eligible for home study credit or credit from a non-accredited situation. Testing for academic and non-academic course credit will be content specific and will include, but not be limited to, course objectives as defined by the state approved curriculum.

If the student passes the tests administered by school district personnel to determine credit accepted, the school will also accept the grades listed on the records provided by the parent or guardian for those specific courses tested. **These grades will not be considered when selecting valedictorian, salutatorian or honor graduates.**

Student who have been enrolled in a home study program or other non-accredited situation must pass the state mandated assessments and meet State of Georgia and Towns County High School graduation requirements before a diploma will be issued.

A student who has enrolled in a home study program or any other non-accredited situation shall be informed by the school guidance office at the time of application to the public school that his/her participation in class is on a credit basis. Auditing of classes is not permitted in the Towns County High School. A student enrolling in a public high school for the first time during a grading period shall be responsible for the content and objectives for the total grading period's work and major grade-bearing activities for the class. Teachers shall be responsible for informing students of their obligation for grade-bearing activities, but teachers shall not be responsible for re-teaching information to students on content that was presented prior to the time of enrollment in school. School district personnel will assess with the student and parents

school work done in the non-accredited situation prior to enrollment or re-enrollment.

If a parent or legal guardian disagrees with credit accepted or denied by the school for a student from a non-accredited situation or home school, an appeal may be made to the principal of the school and then, if still dissatisfied, later to the Superintendent of Schools. The appeal should contain all pertinent information, documentation, transcript, attendance record, and state the reasons for the appeal. The decision of the Superintendent is final.

ACCEPTABLE USE AND INTERNET SAFETY GUIDELINES FOR THE COMPUTER NETWORK OF THE TOWNS COUNTY SCHOOL SYSTEM

The Towns County School System is pleased to make available to students access to interconnected computer systems within the District and to the Internet. In order for the Towns County School System to be able to continue to make its computer network and Internet access available, all students must take responsibility for appropriate and lawful use of this access. Students must understand that one student's misuse of the network and Internet access may jeopardize the ability of all students to enjoy such access. While the school's teachers and other staff will make reasonable efforts to supervise student use of network and Internet access, they must have student cooperation in exercising and promoting responsible use of this access.

Below are the Acceptable Use and Internet Safety Guidelines of the Towns County School System and the Data Acquisition Site that provides Internet access to the school district. Upon reading the guidelines, signing, and returning the Student's Agreement as the students have been directed, each student will be given the opportunity to enjoy Internet access at school and is agreeing to follow the guidelines. If a student is under 18 years of age, he or she also must have his or her parents or guardians read the guidelines and sign the agreement. The Towns County School System will not provide access to any student who, if 18 or older, fails to sign and submit the agreement to the school as directed or, if under 18, does not return the agreement as directed with the signatures of the student and his/her parents or guardians.

Listed below are the provisions of your agreement regarding computer network and Internet use. If you have any questions about these provisions, you should contact the Technology Director, Trena Stroud and/or the Principal of the school in which your child attends. If any user violates the guidelines, the student's access will be denied, if not already provided, or withdrawn and he or she may be subject to additional disciplinary action.

I. PERSONAL RESPONSIBILITY

By signing this agreement, you are agreeing not only to follow the rules in these guidelines, but are agreeing to refrain from any other misuse of the network that is not included in the guidelines, but has the effect of harming another or his or her property.

II. TERM OF PERMITTED USE

A student who submits to the school, as directed a properly signed agreement and follows the guidelines to which she or he has agreed will have computer network and Internet access during the course of the student's enrollment in the school.

III. ACCEPTABLE USES

A. Education Purposes Only. The Towns County School System is providing access to its computer networks and the Internet for only educational purposes. If you have any doubt about whether a contemplated activity is educational, you may consult with Technology Director; Larry Shook and/or the Principal of the school in which your child attends to help you decide if a use is appropriate.

Unacceptable Uses of Network. Among the uses that are considered unacceptable and which constitute a violation of the guidelines are the following:

Uses that violate the law or encourage others to violate the law. Do not transmit offensive or harassing messages; offer or sale or use any substance the possession or use of which is prohibited by the school system student code of conduct; view, transmit or download pornographic materials or materials that encourage others to violate the law; intrude into the networks or computers of others; and download or transmit confidential, trade secret information, or copyrighted materials. Even if materials on the networks are not marked with the copyright symbol, you should assume that all materials are protected unless there is explicit permission on the materials to use them.

Uses that cause harm to others or damage to their property. For example, do not engage in defamation (harming another's reputation by lies); employ another's password or some other user identifier that misleads message recipients into believing that someone other than you is communicating or otherwise using his/her access to the network or the Internet; upload a worm, virus, "trojan horse," "time bomb," or other harmful form of programming or vandalism; participate in "hacking" activities or any form of unauthorized access to other computers, networks, or information systems.

Uses that jeopardize the security of student access and of the computer network or other networks on the Internet. For example, do not disclose or share your password with others; do not impersonate another user.

Uses that are commercial transactions. Students and other users may not sell or buy anything over the Internet. You should not give others private information about you or others, including credit card numbers and social security numbers.

Netiquette- All users must abide by rules of network etiquette, which include the following:

Be polite. Use appropriate language. No swearing, vulgarities, suggestive, obscene, belligerent, or threatening language.

Avoid language and uses which may be offensive to other users. Do not use access to make, distribute, or redistribute jokes, stories, or other material which is based upon slurs or stereotypes relating to race, gender, ethnicity, nationality, religion, or sexual orientation.

Do not assume that a sender of e-mail is giving his or her permission for you to forward or redistribute the message to third parties or to give his/her e-mail address to third parties. This should only be done with permission or when you know that the individual would have no objection.

Be considerate when sending attachments with e-mail (where this is permitted). Be sure that the file is not too large to be accommodated by the recipient's system and is in a format which the recipient can open.

IV. INTERNET SAFETY

General Warning: Individual Responsibility of Parents and Users. All users and their parents/guardians are advised that access to the electronic network may include the potential for access to materials inappropriate for school-aged students. Every user must take responsibility for his or her use of the computer network or Internet and stay away from these sites. Parents of minors are the best guide to materials to shun. If a student finds that other users are visiting offensive or harmful sites, he or she should report such use to Technology Director, Larry Shook, and/or the Principal of the school in which your child attends.

Personal Safety. Be safe. In using the computer network and Internet, do not reveal personal information such as your home address or telephone number. Do not use your real last name or any other information which might allow a person to locate you without first obtaining the permission of a supervising teacher. Do not arrange a face-to-face meeting with someone you "meet" on the computer network or Internet without your parent's permission (if you are under 18). Regardless of your age, you should never agree to meet a person you have only communicated with on the Internet in a secluded place or in a private setting.

"Hacking" and Other Illegal Activities. It is a violation of these guidelines to use the school's computer network or the Internet to gain unauthorized access to other computers or computer systems, or to attempt to gain such unauthorized access. Any use which violates state or federal law relating to copyright, trade secrets, the distribution of obscene or pornographic materials, or which violates any other applicable law or municipal ordinance, is strictly prohibited.

Confidentiality of Student Information. Personally identifiable information concerning students may not be disclosed or used in any way on the Internet without the permission of a parent or guardian or, if the student is 18 or over, the permission of the student himself/herself. Users should never give out private or confidential information about themselves or others on the Internet such as home addresses, home telephone numbers, or particularly credit card numbers or Social Security numbers.

Active Restriction Measures. The school, either by itself or in combination with the Data Acquisition Site providing Internet access, will utilize filtering software or other technologies to prevent students from accessing visual depictions that are (i) obscene, (ii) child pornography, or (iii) harmful to minors. The school will also monitor the online activities of students, through direct observation and/or technological means, to ensure that students are not accessing such depictions or any other material which is inappropriate for minors.
